

most commonly asked HOA question

WHAT ARE ASSESSMENTS AND WHAT TO THEY PAY FOR

As a member of the Association of Poinciana Village's you are a part of the development of it's assets. Each member of APV is responsible an equal share of the expenses that it takes to develop and maintain Poinciana to remain a perfect place to call home. These are referred to as yearly assessments.

Assessments are determined by the yearly budget that is voted on in October of every year, by the Board of Directors

Much like taxes, assessments take into consideration what it will cost to run the HOA and to provide services that enhance the community beyond what your County tax dollar provide.

It is the goal of APV to keep assessments as low as possible while still providing great service to the community of Poinciana.

To the right you will find a long list which is only a sampling of what your assessment dollars pay for.

UTILITIES

- Duke Energy
 - All street lights and pole maintenance in the community
